

	HS 1A	HS 1A Revised	HS 12A	HS 12A Revised	HS JB2 Revised	PG1 (Park Glen proposal #1)
Community Integrity						
# of High Schools per community						
Park Glen	3*	3*	3*	2*	3*	2*
Heritage	3	2	2	2	2	2
Woodland Springs	2*	2*	2*	2*	2*	2*
Summerfields	1	1	1	1	1	1
All others	1	1	1	1	1	1
<i>*Part of Park Glen resides in BISD and part of Woodland Springs lies in NWISD so the lowest possible # of high schools for each of these communities is 2, one in KISD and one in the other district</i>						
Growth Projections						
2011 HS Population Projections						
Central	2834	2885	2839	2586	2688	2780
Fossil Ridge	2901	2580	2828	3121	2580	2386
Keller	2897	2553	2760	2795	2795	2897
New	2420	3032	2623	2551	2988	2988
An exact balance amongst all schools would imply 2763 students per school in 2011						
KHS population is expected to peak in 2011 and decline each year thereafter => KHS population in 2011 should be higher than average						
An additional 529 students (plus some potential multi-family units) are projected for the current FRHS boundary between 2011 and 2014 => FRHS must be kept small to allow for growth past 2011						
The new HS can handle approximately 200-250 more students than KHS and FRHS						
Student Safety						
Number of students over the baseline (PG1) crossing 377 and the train tracks	0	344	137	102	102	0
KISD Resident Feedback						
Over 80% of the emails presented at the last BARC meeting involved two topics: Keeping the full KISD portion of Park Glen in Central High and keeping the Willis Lane area in Keller High						
All Park Glen KISD students in Central HS?	NO	NO	NO	NO	NO	YES
Most of Willis Lane in Keller HS?	YES	NO	NO	NO	NO	YES
